- 01/24

## Contexte

WiFi traces capture device using redundant raspberry pi's.

## Objectifs

Develop a cluster of raspberry pi's for wifi traces capture, enhancing probability of capture and signal information quality.

## Matériel

- 9 raspberry pi's
- Handmade LED board
- Alfa antennas
- buttons and resistors

## Journal de bord

# 24/01/2024

Assembling V1 of the cluster.
